Summary

Am a dedicated software developer with unconventional thinking focused in solving real life problems. My primary focus and inspiration for my studies is Web development specializing in Django. I am passionate about web development and strive to better myself as a developer and the development community as a whole.

PROJECTS

Changisha

May 2018

Changisha is a solution aimed at improving fundraising activities by providing a platform where the community can easily raise funds and donations can be done through the system. I was engaged in servicing the Backend. Team size was two(2)

Intercede Construction

June 2017

A web application aimed at providing information on interior designs and decorations. I was the project team lead and backend engineer. Team size was four(4)

WORK EXPERIENCE

February 2018- May 2018

I undertook a three month internship at Ramco Group (Sai Office Supplies Limited) ICT Department as an IT Support engineer.

VOLUNTEER EXPERIENCE

Andela learning community

May 2017

I facilitated Git and Github talks(version control) to beginner developers and letting them explore its importance in collaborative development.

Computer Society Of Kimathi

Jan-Dec 2017

I was involved in co-ordinating club activities and campaign on student outreach about the club.
